JUNE 2016

INTRODUCING OUR LATEST TECHNOLOGY

The new **ESBE CHIP50** Combined Heat & Power (CHP) unit generates electricity whilst also capturing usable heat that is produced in this process. Our exhibition unit is on its way to us and we should have this installed in our show room warehouse by the end of June.

WE ARE ON THE MOVE

We are currently in the process of relocating to Unit MO45 Mile Oak Industrial Estate...just around the corner from our former premises. The new, larger unit will give us the opportunity to have working renewable systems on display. If your in the area, pop in to take a look.

COMMERCIAL RENTAL OPPORTUNITY

Unit A, M045 Mile Oak Industrial Estate, Maesbury Road, Oswestry, SY10 8ZZ

The site benefits from roadside frontage and comprises a commercial unit that would lend itself to a variety of commercial/roadside uses subject to the receipt of the relevant statutory consents.

The property provides a total gross internal floor area of approximately **9,571 ft²**

For more information please contact Halls Commercial Lettings on **01743 236444**

THERMODYNAMIC HOT WATER SYSTEM

GeoGen can now offer the new thermodynamic water system from TD Store. If you are interested in reducing your water heating bills at home or work then please get in touch and request a quote.

- * Operates in sun, wind rain and at night
- * Heats water to 55°C all year
- * Superb Thermal efficiency
- * Suitable for domestic and commercial properties
- * Very little maintenance
- * Wall mounted (doesn't have to face south)

BATTERY STORAGE

We now have a range of battery storage systems which can cater for a variety of situations including domestic, agricultural, off-grid or large commercial.

We can offer either a retrofitted to existing PV systems to store your systems power for the evening, or incorporate the batteries into your system design.
